

Nifisk SCRUBTEC 886 available for long, medium or short term hire

Walk Behind 860mm Battery Powered Scrubber Dryer

The SCRUBTEC 8 is the complete walk-behind unit for large area cleaning. More versatility, greater productivity, better reliability, extremely quiet and with advanced ergonomics. Features include the latest technologies developed through years of cleaning experience.

Gimbal-mounted brushes provide adjustable pressure to ensure effective cleaning, even on heavily soiled surfaces. The parabolic AccuTrack™ squeegee leaves the floor dry and ready for re-use. The brush decks are interchangeable. The one-touch controls reduce operator error and improve cleaning results, and the ergonomics are such that operator fatigue are minimised...the list goes on! The superb performance of the SCRUBTEC 8 machines brings a new dimension to large area floor cleaning. When scrubbing and drying is this efficient, costs are optimised and the benefits become obvious. Reliable and easy to use provides added value to professional cleaning.

PRODUCT FACTS

- Excellent ergonomic design
- Easy to understand control panel with "OneTouch" Scrub Control
- Extremely quiet operation thanks to the Acoustically engineered vacuum motor containment
- Large 85 litre solution and recovery tanks provides longer run time between dump and fills.
- Patented electronic pulse solution delivery system delivers precise and consistent solution without use of mechanical valves
- Rear solution fill allows filling when the machine is back into the deep sink for emptying the recovery
- Grey, foam filled wheels leave no marks on the floor
