

3199F

Drain Inspection Camera

The Geo 3199F drain inspection camera is ideal for simple drainage surveys where more expensive camera systems would be uneconomical to operate.

- 7" Colour LCD monitor
- 23mm Colour camera
- 135 degree wide camera vision angle
- 30m x 5.4mm fibreglass rod cable
- Download digital videos via SD card
- Rugged, protective case

The fully digital mini-cam is equipped with a 23mm colour camera mounted on the end of a tough fibreglass rod cable.

Applications: Drains, sewer, pipeline, duct, chimney, machinery and building inspection; maintenance of plumbing and wiring behind walls.
